Planning Application

Dear Mr Sedgwick

Proposal: Outline application (specifying the access point) for the development of up to 25 dwellings and associated infrastructure (including 35% affordable housing).
Location: Land At Carrington Road Adlington
Reference: 20/01200/OUTMAJ

I write regarding the above application. You may or may not be aware that this application is one of six major applications the council is currently considering on sites designated as safeguarded land in the Chorley Local Plan 2012 - 2026.

I am sure you will appreciate the unprecedented circumstances of the current Covid-19 crisis, and demands that this has placed on Council resources and working arrangements. Unfortunately, due to the current limited capacity of the team, the number of major applications received in such a short period of time and the large numbers of representations they are generating, I must advise that unfortunately the application is not going to be determined within the statutory timescale.

I am, therefore, writing to request an extension of time for determining the application until 31 March 2021.

Please could you confirm as soon as possible if you agree to this extension to caron.taylor@chorley.gov.uk

Chief Planning Officer
Chorley Council
